Introduction

The POSHAN COVID-19 Resources is an online repository of government circulars, national and international guidelines and technical documents on programming during the COVID-19 Pandemic. This is an easy-to-use compilation of COVID-19 resources focusing on nutrition, food security, early childhood development and related issues. The central and state-level policies since the start of the outbreak and lock-down are also provided in the efforts to restore essential services across the life cycle. The Resources site is updated regularly, providing comprehensive evidence-informed guidance in nutrition and is publicly available for policymakers, researchers, health professionals and general public.

Spatial Analysis of National Family Health Survey

Spatial analysis of the National Family Health Survey (NFHS-4 and NFHS-5) datasets providing state and national information for India on maternal and child health, nutrition, anaemia, utilization and quality of health, and many more; for better policy and programme implementation.

National Family Health Survey - 4 (2015-16)

National Family Health Survey - 5 (2019-20) New
